1 DR. CARLTON B. GOODLETT PLACE  
ROOM 456, CITY HALL  
SAN FRANCISCO, CALIFORNIA 94102

VICKI L. HENNESSY  
SHERIFF

### San Francisco Sheriff's Department Chapter 96A Third Quarter Report – July 1, 2017 – September 30, 2017

#### Executive Summary:

San Francisco Sheriff's deputies dedicate themselves to ensuring public safety as well as the safe, secure and humane treatment of prisoners in our custody. As required by Administrative Code Chapter 96A, this report contains statistics for arrests, encounters and uses of force.

During the third quarter of 2017, the department initiated:

Arrests:	<b>176</b>
Encounters:	<b>43</b>
Uses of Force:	<b>39</b>

The Sheriff's Department includes four divisions: Administration and Programs; Custody Operations; Field Operations; and Planning and Special Projects. Deputies in each division may conduct arrests, encounters or use force as necessary to protect public safety.

## **Division Responsibilities:**

### **Administration and Programs**

The Administration and Programs Division ensures compliance of individuals sentenced to treatment programs, electronic monitoring and the Sheriff's Work Alternatives Program (SWAP). Deputies may remand individuals into custody who violate the terms of their sentences or treatment programs. Occasionally, they encounter members of the public who pose a threat to public safety and respond as necessary.

### **Custody Operations**

The Custody Operations Division secures the county jails and ensures inmate safety. This includes breaking up inmate fights. When inmates do not respond to verbal commands during an altercation, a deputy may deploy pepper spray to de-escalate the conflict, gain prisoner compliance and decrease the risk of injury to prisoner and deputy. If pepper spray proves ineffective, deputies may use reasonable additional force.

Department policy requires immediate medical treatment for the affected individual if a deputy uses pepper spray. Jail Health Services treats inmates in custody. Deputies seek outside medical assistance when using pepper spray in the field.

Deputies in Custody Operations carry additional responsibilities including: escorting prisoners to court appearances; facilitating prisoner participation in restorative justice and rehabilitation in-custody programs; taking individuals into custody who turn themselves in for an outstanding arrest warrant or transferred to the San Francisco Sheriff's custody from another county, and rebooking inmates who commit crimes while in jail.

### **Field Operations**

The Field Operations Division is responsible for securing public buildings including City Hall, Zuckerberg San Francisco General Hospital, and the Department of Public Health-Community Clinics. Deputies conduct foot patrols of these sites and may encounter individuals who pose a risk to public safety causing deputies to engage the individual. Below are reasons a deputy may contact a member of the public:

- **Consensual encounter** – *a stop and encounter with an individual who is free to disengage from the interaction at any time.*
- **Facility security checkpoint violation** – *an individual's failure to comply with, or attempt to enter a facility secured by sheriff's deputies without going through the security checkpoint, or for trying to bring in contraband.*
- **Mental health evaluation** – *an evaluation of a person who, through their behavior exhibit severe mental health symptoms or actions that constitutes terms of 5150 W&I.*

- **Outstanding arrest warrant** – *the identification and arrest of a person who has an unbooked warrant.*
- **Private person's arrest** – *a citizen's arrest affidavit.*
- **Probable cause** – *Information of events that legally constitute probable cause for an arrest, search or seizure.*
- **Probation or parole violation** – *a person, wanted for violating the terms of their probation or parole.*
- **Reasonable suspicion** – *information and observable facts indicating a crime has occurred.*
- **Released in error** – *human error or misreading of a court document, resulting in the release of the wrong individual from custody.*
- **Remanded into custody** – *occurs during a court appearance upon the order of a judge, or for violating the rules of a treatment program while on sentenced release.*
- **Traffic violation** – *an on-view observation of a traffic violation.*

### **Planning and Special Projects**

The Sheriff Department's Planning and Special Projects division focuses on meeting the current and future needs of the Sheriff's Department. Members of this division have less contact with members of the public and inmates. However, they do respond to critical incidents when necessary to protect public safety.

**Department-Wide Encounters:**
